

OUR MISSION

- To Save Customers Time
- To Save Customers Money
- To Build ICONic Structures

ICON Forming Systems specializes in the supply of forming and accessory systems to the concrete construction industry. We combine products from some of the leading brands along with our own in-house design, manufacturing and project management expertise to enhance our customer's overall project execution. We seek to make the ICON experience a truly collaborative process that puts the success of our customers' projects first.

SMART

Our team works to fully understand the scope of work and determine the right system and solution that will maximize the efficiency of your workflow.

We are not product sellers, We are SOLUTION suppliers who provide;

- Design engineering and problem solving
- Commitment to first class service
- Clear, consistent communication
- Cost-effective pricing

SOLUTIONS

- ICON offers a full line of concrete accessories and chemicals to meet the need of any construction project including;
- Rebar Supports
 - Bracing
 - Water Stop
 - Stud Rail and Load Transfer
 - Rebar Splicing
 - Anchoring Systems
 - Concrete Chemicals
 - Forming Hardware
 - Construction Equipment

REBAR SUPPORTS

ICON forming systems offers a full line of rebar support systems for both horizontal and vertical forming. All supports are manufactured to meet ACI standards and come in a variety of sizes and types. This includes

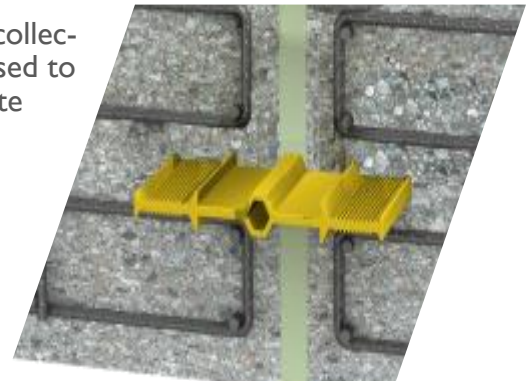

- ⇒ Continuous High Chair
- ⇒ Individual Chair
- ⇒ Slab and Beam Bolster
- ⇒ Tie Wire
- ⇒ Plastic Spacer Wheels

WATERSTOP

ICON forming systems offers a comprehensive collection of PVC waterstop products and solutions used to seal construction and expansion joints in concrete structures.

- ⇒ Multi-ribbed PVC waterstop
- ⇒ Hydrophilic Waterstops

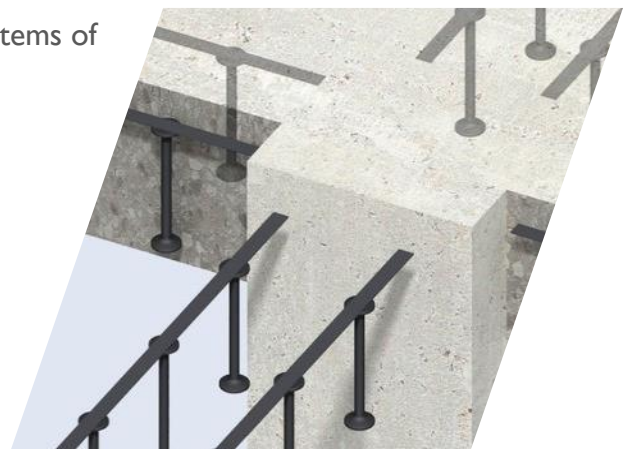

STUD RAIL AND LOAD TRANSFER

ICON forming offers stud rail as a cost-effective solution to resist punching shear at slab-column connections in elevated slabs and foundation mat slabs, as well as bursting stresses in post-tension anchorage zones.

We also offer a range of load transfer systems of slab construction including

- ⇒ Load transfer dowels
- ⇒ Speed Dowels
- ⇒ Plate Dowels
- ⇒ Dowel Bar Keyway Strips

REBAR SPLICING

ICON forming offers a range of systems to accommodate in-situ rebar splicing to suit any specified requirement for both new construction and rehabilitation

- ⇒ Mechanical Couplers
- ⇒ Positional Couplers
- ⇒ Straight Threaded Couplers
- ⇒ Form Savers

ANCHORING

ICON forming can assist with anchoring systems for virtually any application in a variety of finishes including Stainless Steel. This includes

- ⇒ Rock Anchors
- ⇒ Cast-in Coil and Ferrule Anchors
- ⇒ Drop In Anchors
- ⇒ Screw-In Removable Anchors
- ⇒ Epoxy Anchoring Systems

CONSTRUCTION CHEMICALS

ICON forming offers a variety of concrete construction chemicals for numerous applications and functions in both new construction and rehabilitation.

- ⇒ Cementitious and Epoxy Grouts
- ⇒ Repair Mortars
- ⇒ Cures and Sealers
- ⇒ Leveling Compounds
- ⇒ Form Release

FORMWORK HARDWARE

At ICON forming systems, formwork hardware and components are at the core of our business and expertise. We provide high-quality, high-capacity products to provide a solution to any formwork application. This includes

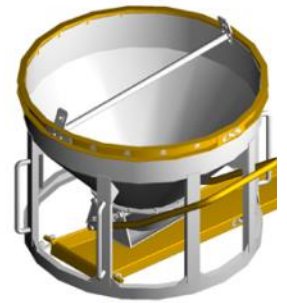

- ⇒ Coil and Euro Thread Tie Rods
- ⇒ Spacer tubes and cones
- ⇒ Coil Ties—Plain, Galvanized, Stainless Steel
- ⇒ Standard and Custom Tie Plates
- ⇒ Wing Nuts and Handle Nuts
- ⇒ Snap ties and Omni Wedges
- ⇒ Walkway and Catwalk Brackets
- ⇒ Guardrail Post Holders and Slab Edge
- ⇒ Turnbuckles
- ⇒ Metal Rib Form
- ⇒ Steel and Aluminium Post Shores
- ⇒ 6 1/2" Aluminum Beams with Plastic Nailer
- ⇒ Steel and Aluminum Walers
- ⇒ Elevator Boxes
- ⇒ Rebar Impalement and Safety Caps
- ⇒ Steel Stakes
- ⇒ Screed Hardware

CONSTRUCTION EQUIPMENT

Concrete Buckets

Available in steel or aluminum. Large round discharge prevents segregation and provides smooth concrete placement. Concrete tight, clam-shell gate. Reliable and easy to maintain mechanisms. Each bucket includes wire-rope sling.

Loading Platforms

Cantilevered loading platforms for multistory construction. Standard 6000 & 13,000 lbs capacity. Comes equipped with guardrails, lifting brackets and pre-determined shore location.

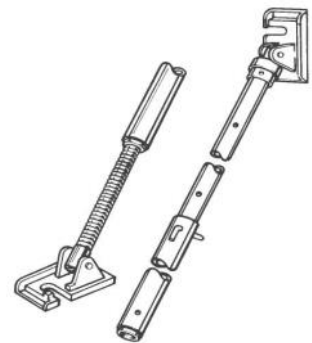

Concrete Washout Boxes

Standard and custom sizes available. Equipped with lifting brackets and hinged stripping doors.

Braces

Widely used for Tilt-up, Precast and Forming—ICON offers a full range of high-capacity bracing systems for sale and rent.

Flying Truss Lowering Devices

High Capacity, light-weight lowering devices for lowering and moving Aluminum and Steel Flying trusses for High-rise construction.
